

Container And Pooling Solutions

Why Use One-Way Liquid Containers?

- Are you looking for an affordable solution for your one-way shipping needs?
- Does your company ship products that have an extended shelf life?
- Do you frequently make international shipments?
- Would you like to find a more environmentally friendly shipping solution?

If you answered yes to ANY of the questions above, CAPS can show you a more cost-effective and efficient way to ship and store your liquid product. Rather than buying drums, try [CAPS One-Way liquid containers](#).

Our 275-gallon corrugated tote is perfect for smaller volumes, international shipments, extended shelf life product and one-time use needs. **If you work in the food, beverage, pharmaceutical, cosmetic or non-hazardous chemical markets, CAPS' One-Way liquid containers provide the perfect solution.** Below are just a few of the benefits.

The Benefits of Using One-Way Liquid Containers

1. Low-cost, high-quality liquid packaging.

Save money by eliminating return transport costs.

2. Environmentally friendly shipping and storage solution.

CAPS [One-Way liquid containers](#) use less corrugated material than the leading competitor – without sacrificing any of the durability you need. They are also 100% recyclable, so you can green your supply chain by reducing waste.

3. Durability and strength.

CAPS' 275-gallon [corrugated tote](#) is durable enough to withstand even the most strenuous shipping conditions. These liquid containers exceed all ISTA testing requirements, so you can rest assured that your liquid materials will be safe during transport.

4. Easy assembly and filling.

To allow for easier assembly, CAPS' One-Way liquid totes have seams that are pre-folded after production. Additionally, their unique design allows for single operator set up in less than a minute. With CAPS, filling your tote is fast and hassle-free.

CAPS' One-Way [liquid containers](#) were designed using the most innovative technology, with our customers' unique needs in mind. Our corrugated totes are strong, easy to use and 100% recyclable. Take advantage of CAPS' greener, less expensive, expendable IBC shipping solution today.
